FOR THAT ULTIMATE CONFIDENCE OF FRESH BREATH ALL DAY

JANINA OPTIMA MOUTH RINSE REVOLUTIONARY HYGIENIC SPRAY DISPENSING FORMULA

**FOR THAT CONFIDENCE OF
FRESH BREATH
AND WHITER TEETH**

EASY TO USE - SPRAY & SWISH

DIRECTIONS FOR USE FOR ADULTS AND CHILDREN OVER 12

IMPORTANT - SHAKE WELL BEFORE USE

FIRST USE OF SPRAY DISPENSER - press pump head two or three times (aimed into bathroom sink) until a shot of spray is dispersed. Then spray dispenser is ready for use.

Janina Optima Mouth Rinse contains between **50 and 100 doses**.
Recommended dose: Spray between 5 shots (1ml) and 10 shots (2ml), or as much as desired, **close & directly into the mouth**. Then swish and gargle for 1 to 2 minutes. Best results achieved the longer the rinse is in the mouth. Spit out excess - **do not rinse** - as active ingredients will continue to maintain **24 hour protection for that confidence of fresh breath**.

OPTIMA MOUTH RINSE formulation contains 12 active ingredients to eliminate [not mask] bad breath compounds and promote lasting good oral hygiene. [Most other mouth rinses contain as few as 2 active ingredients]. Optima Mouth Rinse contains the Bromaine Complex™ (a patented combination of natural fruit enzymes) to whiten teeth safely.

The formulation will remove plaque - **INSTANT FEEL EFFECT** – which causes **VSCs** (Volatile Sulphur Compounds) **the cause of bad breath and gum problems**. Optima Mouth Rinse will help prevent tooth decay and help sensitive teeth. The unique formulation has been **clinically tested and proven** – as published by a leading UK University.
